Certificate for Module (Hospital Intelligence)

Programme Code: HS192A

Application Code: 2045-HS192A

☎ 3762 0096

✉ sheri.ip@hkuspace.hku.hk

"Hospital intelligence" is about making use of a variety of digital technologies, i.e. Big Data (BD), Business Intelligence (BI), Artificial Intelligence (AI), Machine Learning (ML) and Deep Learning (DL) to connecting up the points of care electronically and to help healthcare professionals to deliver safer, better quality healthcare to patients. Currently, hospital healthcare professionals also facing many challenges varying from patients, colleagues, Government and other public sectors, and also political and legal framework which require them to have an accurate response or decision within a short period of time. Therefore, a well-established digital healthcare intelligence system is needed in the hospital sector.
