Advanced Diploma in Sport Coaching and Performance (credit bearing courses)

This programme enables learners to study part of the wide range of modules available in Advanced Diploma in Sport Coaching and Performance programme. Learners may choose any of the modules listed below and enrol for a maximum of two modules per semester. Students are assessed by written assignments and examinations as prescribed in the Advanced Diploma programme. Upon successful completion of each module, participants will earn a Certificate of Achievement. Credits accumulated are fully transferable to the Advanced Diploma in Sport Coaching and Performance programme, should the participant wish to finish the entire Advanced Diploma programme.

Anatomy and Physiology for Exercise

Programme Code: SPFE4013

This module aims to provide students with an understanding of the skeletal, neural and muscular functions, and the physiological processes that provide the basis for human capacity to move and exercise.

Introduction to Sport Coaching and Performance

Programme Code: SPFE3009

This module aims to provide an introduction to the coaching process and to the basic principles and components of performance enhancement.

Physical Performance Perspectives

Programme Code: SPFE4015

The module aims to provide students with an understanding of the changes in human movement behaviour across the lifespan and the influence these changes have on motor performance. Students will chart the development cycle of people and relate this to considerations from infancy, through adulthood to older adults. Students should understand the way people learn, develop and perform skilled movement. How people process information, programme and control movement through senses in set conditions will be explored, and students should appreciate the use of suitable environments and training techniques.

Nutrition for Sport and Exercise

Programme Code: SPFE3010

The module aims to introduce students to the relationship between diet and exercise, and how this knowledge is used in by the exercise practitioner in planned exercise programmes and the promotion of healthy lifestyles.

Developing and Assessing Sport Performance

Programme Code: SPFE5010

This module aims to provide students with the skills to critically assess sport performance in athletes, to investigate those extrinsic and intrinsic factors that impact upon performance and to provide the basis for students to be able to formulate their own strategies for developing sport performance.

Exercise Physiology: Aerobic and Anaerobic

Programme Code: SPFE4014

The module aims to provide students with an understanding of the impact that exercise has on the physiology of the body using Aerobic and Anaerobic training as the medium of instruction.

Body In Motion

Programme Code: SPFE4017

The module aims to provide students with an understanding of the mechanical laws which affect the efficient movement of the body in different exercise settings.

Participation Behaviour and Exercise

Programme Code: SPFE5011

The module is designed to introduce students to the psychological factors related to participation in exercise and sport.

Performance Programming for Coaches: Theory to Practice

Programme Code: SPFE5012

This module aims to develop students' knowledge and skills in sport programming with a focus on short term and long term plans. Students should understand the components of the sport coaching plans including vertical integration and horizontal sequencing of components through the use of periods, phases, macro-cycles and micro-cycles. It also provides students with an understanding of the programming considerations relating to coaching specific population groups, such as children, female athletes, athletes with disabilities and masters athletes.
