These programmes are particularly designed for occupational hygiene, safety and health practitioners. In order to gain these masters degree awards, students must complete a total of six taught courses and one dissertation in their respective specialisation.

They are intended to provide knowledge in identifying workplace hazards and developing professional skills for effective decision making on appropriate means of control.

**R** Applicants are expected to possess a bachelor's degree in the physical science discipline awarded by a recognized university.

Applicants who are members of an appropriate professional body and have appropriate professional experience may also be considered on an individual basis.

All applicants will be expected to demonstrate a proficiency in English such as IELTS with a minimum average score of 6.0 or TOEFL with a minimum score of 550; applicants who do not satisfy the minimum English proficiency requirement may be required to attend an interview or take an English enhancement course. This requirement will not apply to applicants who hold a qualification studied in English at an appropriate level.

Applicants are required to submit a Personal Statement of approximately 300 words. This statement should provide a brief overview of the applicant's professional background and a self-evaluation of his/her suitability to successfully complete the programme, and demonstrate an understanding of the programme and explain why it is a good fit for his/her goals and aspirations.
