

Postgraduate Diploma in Finance and Data Analytics

Programme Code: FN050A

Application Code: 2385-FN050A

2867 8424

finpgd@hkuspace.hku.hk

The programme covers a wide range of knowledge in Statistical Analysis, Corporate Financial Management, Risk Analysis and Asset Allocation, as well as Investment and Portfolio Management, Financial Modelling and Analytics Software. Students will learn how to apply the knowledge and techniques used by market professionals and refresh their investment knowledge using big data.

R Applicants shall hold a bachelor's degree in quantitative areas (e.g., mathematics, engineering, statistics, computer science, economics, finance) awarded by a recognised institution.

If the degree or equivalent qualification is from an institution where the language of teaching and assessment is not English, applicants shall provide evidence of English proficiency, such as:

- an overall band of 6.0 or above with no subtests lower than 5.5 in the IELTS; or
- a score of 550 or above in the paper-based TOEFL, or a score of 213 or above in the computer-based TOEFL, or a score of 80 or above in the internet-based TOEFL; or
- HKALE Use of English at Grade E or above; or
- HKDSE Examination English Language at Level 3 or above; or
- equivalent qualifications.

Applicants with other qualifications and substantial senior level work experience will be considered on individual merit.

Remark: Applicants with relevant academic and/or professional qualifications may approach the Programme Team for application of exemption.

\$ HK\$10,500 per module
Application Fee: HK\$150

D 1 year to 2 years

Q Level 6 (Reg. No.: 20/000411/L6) Validity Period: 01 Jul 2020 - on-going

Postgraduate Diploma in Financial Analytics and Algo Trading

Programme Code: FN092A

Application Code: 2435-FN092A

2520 4612

finpgd@hkuspace.hku.hk

This programme aims to impart inter-disciplinary knowledge of quantitative finance and machine intelligence to students who are interested in financial analytics and algo trading. It examines contemporary elements in Environmental, Social and Governance (ESG) investing, financial risks and investment portfolios. It also discusses the applications of computational tools to analyse quantitative data and qualitative data, build financial models, perform financial analysis and text analytics to assist investment decision making. The programme illustrates the applications of artificial intelligence (AI) and machine learning to perform financial analytics as well as the usage of algo trading in implementing quantitative investment strategies.

R Applicants shall hold a bachelor's degree in quantitative or computational areas (e.g., economics, finance, mathematics, statistics, science, computer science, IT or engineering) awarded by a recognized institution or equivalent.

If the degree or equivalent qualification is from an institution where the language of teaching and assessment is not English, applicants shall provide evidence of English proficiency, such as:

- an overall band of 6.0 or above with no subtests lower than 5.5 in the IELTS; or
- a score of 550 or above in the paper-based TOEFL, or a score of 213 or above in the computer-based TOEFL, or a score of 80 or above in the internet-based TOEFL; or
- HKALE Use of English at Grade E or above; or
- HKDSE Examination English Language at Level 3 or above; or
- equivalent qualifications.

Applicants without the above qualifications but have substantial work experience will be considered on individual merit.

Applicants who do not have a background in quantitative or computational areas are required to take the Certificate for Module (Quantitative Methods in Finance) as the bridging course. They must complete and pass the module before the commencement of the programme.

\$ HK\$12,300
1st - three modules: HK\$36,900
2nd - three modules: HK\$36,900
Application Fee: HK\$150

D 1 year to 2 years

Q Level 6 (Reg. No.: 22/000999/L6) Validity Period: 01 Dec 2022 - on-going

Postgraduate Diploma in FinTech and Legal Regulations

Programme Code: FN078A

Application Code: 2445-FN078A

2867 8331
2520 4612

studylaw@hkuspace.hku.hk
finpgd@hkuspace.hku.hk

This programme aims to impart inter-disciplinary knowledge of FinTech and legal regulations to students who are interested in the latest applications of FinTech and related legal issues. It examines contemporary elements and issues of FinTech and applies computational tools to finance and investment through practical workshops in the computer laboratory. The programme illustrates the applications of AI, RegTech, blockchain and robo advisory as well as explains the regulatory framework and statutory compliance.

R Applicants shall hold a bachelor's degree in quantitative or computational areas (e.g., economics, finance, mathematics, statistics, science, computer science, IT, engineering) awarded by a recognized institution or equivalent.

If the degree or equivalent qualification is from an institution where the language of teaching and assessment is not English, applicants shall provide evidence of English proficiency, such as:

- an overall band of 6.0 or above with no subtests lower than 5.5 in the IELTS; or
- a score of 550 or above in the paper-based TOEFL, or a score of 213 or above in the computer-based TOEFL, or a score of 80 or above in the internet-based TOEFL; or
- HKALE Use of English at Grade E or above; or
- HKDSE Examination English Language at Level 3 or above; or
- equivalent qualifications.

Applicants who hold the Advanced Diploma for Legal Executives (Graduate Level) awarded within the HKU system through HKU SPACE would be eligible for entry.

Applicants without undergraduate qualifications, but have substantial work experience will be considered on individual merit.

Applicants who do not have a background in quantitative or computational areas are required to take the Certificate for Module (Quantitative Methods in Finance) as the bridging course. They must complete and pass the module before the commencement of the programme.

\$ Module fee: HK\$11,600
2 installments: 1st - three modules: HK\$34,800 and

Executive Diploma in Financial Analytics

Programme Code: EP148A

Application Code: 2440-EP148A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

This programme aims to provide students with the knowledge to investigate financial data which influences finance and investment decisions. Computer coding using Python will be discussed to handle data, build models and perform financial analysis quantitatively. The programme covers the applications of AI, Machine Learning and computerized algorithms to analyze trends and predict financial data.

R Applicants shall hold:
a) a bachelor's degree awarded by a recognized University or equivalent; or
b) an Associate Degree / a Higher Diploma or equivalent, and have at least 2 years of relevant working experience.

Applicants with qualifications in quantitative areas (e.g., mathematics, engineering, statistics, computer science, economics, finance) are preferred.

Applicants with other qualification and substantial senior level work experience will be considered on individual merit.

Executive Certificate in Applied AI and Predictive Analytics for Business

Programme Code: EP137A

Application Code: 2440-EP137A

2867 8331 / 2867 8424 finedec@hkuspace.hku.hk

This programme provides students with the practical knowledge of Artificial Intelligence (AI) as well as discuss the application of Predictive Analytics for Business. Moreover, the programme covers the handling of data for data analysis, data visualization, development of AI and forecasting techniques from the business perspectives. Apart from applying the knowledge to solve problems in their workplace, students may consider further their studies in Big Data, Data Analytics, Data Science, AI, FinTech and Quantitative Analysis in future.

- R** Applicants shall hold:
- a bachelor's degree awarded by a recognized University or equivalent; or
 - an Associate Degree / a Higher Diploma or equivalent, and have at least 2 years of relevant working experience.

Applicants with other qualification and substantial senior level work experience will be considered on individual merit.

Programme Code: FN144A

Application Code: 2435-FN144A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with essential knowledge and a framework for backend web development, and to help them understand the related logic and operations of the systems. It equips students with practical skills to apply computational tools and software to design the database and develop an application programming interface (API). The programme also discusses deployment processes, security issues, application testing, and system support for finance and business applications.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution where the language of teaching and assessment is English. Those with a business, finance, economics, mathematics, statistics, science, engineering, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

Certificate for Module (Blockchain Technology and DeFi)

Programme Code: FN126A

Application Code: 2385-FN126A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

This programme aims to provide students with updated knowledge of blockchain and its practical applications in the finance and investment fields. It offers an overview of the blockchain market and introduces students to the basic concepts and jargons of blockchain and decentralised finance (DeFi). The programme also covers the latest market landscape, insights and discussions on the practical applications of blockchain and the latest technological developments of DeFi.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution where the language of teaching and assessment is English. Those with economics, finance, business, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

Certificate for Module (Business Analytics and Web Scraping)

Programme Code: FN057A

Application Code: 2435-FN057A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with essential knowledge to perform business analytics by processing, analysing, interpreting and visualizing business data. It discusses data wrangling and web scraping methods such as extraction of data from webpages and analysis of collected data to enhance business decision making. Besides, practical business applications of web scraping from managerial perspectives will be covered.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree preferably in the areas of business and statistics (e.g., mathematics, statistics, computer science, IT, engineering, economics or finance) awarded by a recognized institution. Applicants with other equivalent qualifications will be considered on individual merit.

Programme Code: FN082A

Application Code: 2390-FN082A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with the basic knowledge of business forecasting and essential skills in predictive analytics for financial decision making. The programme illustrates techniques of data exploration and regression analysis, and discusses computational tools used to perform business forecasting and predictive analytics. Students can learn how to apply business forecasting through case studies and perform predictive analytics through practical classes in computer laboratories.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution. Those with a business, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

Programme Code: FN067A

Application Code: 2385-FN067A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with the essential knowledge of business intelligence and data automation. It illustrates various techniques of data preparation, data transformation and data automation using computational tools. The programme also discusses real-life cases related to the usage of business intelligence, practical applications and implications of data automation in business.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognized institution. Those with a business, finance, economics, mathematics, science, engineering, IT or computer science background would have an advantage.

Certificate for Module (Business Process Automation with VBA and Python)

Programme Code: FN079A

Application Code: 2385-FN079A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to impart the essential knowledge of process automation to students and equip them with automation techniques in the business. It adopts a contemporary project management approach to business process automation. It also examines the emerging business opportunities and challenges in its planning and implementation of process automation.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree preferably in the areas of business and statistics (e.g., mathematics, statistics, computer science, IT, engineering, economics or finance) awarded by a recognized institution. Applicants with other equivalent qualifications will be considered on individual merit.

Certificate for Module (Computational Finance and Quantitative Investing)

Programme Code: FN079A

Application Code: 2390-FN165A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme provides contemporary knowledge in computational finance and quantitative investing. Students will master the intersection of financial theory, macroeconomic principles, and mathematical and statistical computing. The curriculum is highly practical, emphasising hands-on experience with computational tools and software for data wrangling, model building, algorithmic trading, implementation of machine learning algorithms and portfolio optimisation.

R Applicants should hold an Advanced Diploma, Higher Diploma or Associate Degree awarded by a recognised institution where the language of teaching and assessment is English. Those with a background in business, accounting, finance, economics, mathematics, statistics, science, engineering, IT or computer science would have an advantage. Applicants with other equivalent qualifications will be considered on individual merit.

Programme Code: FN127A

Application Code: 2440-FN127A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme is designed to impart contemporary knowledge on digital finance and automation in the finance and investment sectors to students. It equips them with the practical skills to apply computational tools and software for designing, coding and implementing applications. Besides, the programme demonstrates the practical applications of digital finance automation in banking and finance.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution where the language of teaching and assessment is English. Those with a business, accounting, finance, economics, mathematics, statistics, science, engineering, IT or computer science background would have an advantage. Applicants with other equivalent qualifications will be considered on individual merit.

Certificate for Module (DeFi, Virtual Assets and Algo Trading)

Programme Code: FN127A

Application Code: 2435-FN166A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with contemporary knowledge of decentralized finance (DeFi), virtual assets and algorithmic trading (algo trading). It equips students with the ability to read and interpret altcoin whitepapers as a company introduction, understand how these projects position themselves within the blockchain ecosystem, and analyse how their tokenomics support functionality and growth. Students will also use computational tools and software in data analysis, portfolio optimisation, backtesting, algo trading strategies and practical implementation of automated trading systems.

R Applicants should hold an Advanced Diploma, Higher Diploma or Associate Degree awarded by a recognised institution where the language of teaching and assessment is English. Those with a background in business, accounting, finance, economics, mathematics, statistics, science, engineering, IT or computer science would have an advantage. Applicants with other equivalent qualifications will be considered on individual merit.

Certificate for Module (Distributed Ledger and Blockchain with Business Applications)

Programme Code: FN064A

Application Code: 2390-FN064A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with the contemporary knowledge of distributed ledger and blockchain under the continuous technological advancement. It illustrates the development of smart contracts using computational tools and discusses a practical implementation of blockchain in business. The programme also covers the future development of distributed ledger and blockchain and their implications in business.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution. Those with a business, finance, economics, mathematics, science, engineering, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

Certificate for Module (Financial Analysis and Valuation with Excel and Python)

Programme Code: FN130A

Application Code: 2390-FN130A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with essential knowledge of financial analysis and valuation. It equips students with practical skills to perform financial analysis and data visualisation using Excel and Python. The programme also illustrates simulation and model building, as well as evaluation of corporate performance.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution where the language of teaching and assessment is English. Those with economics, finance, business, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

Programme Code: FN160A

Application Code: 2385-FN160A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with contemporary knowledge in financial crimes analytics and detection methods. It equips them with practical skills in Statistical Analysis System (SAS) programming to perform data analytics and build data models. Additionally, the programme demonstrates how SAS and related techniques can be applied to identify financial crimes effectively.

R Applicants should hold an Advanced Diploma, Higher Diploma or Associate Degree awarded by a recognised institution where the language of teaching and assessment is English. Those with a background in business, accounting, finance, economics, mathematics, statistics, science, engineering, IT, computer science, legal or criminology would have an advantage.

Certificate for Module (Financial Informatics and Data Analytics)

Programme Code: FN108A

Application Code: 2390-FN108A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with essential knowledge of financial informatics and data analytics from business and financial perspectives. It covers the techniques and applications of data analytics to analyse data streams, high-dimensional data and financial data from the web. Upon completion of the programme, students are able to use technical skills for applying computational tools to perform data wrangling and visualisation with practical business and financial applications.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution. Those with a business, accounting, finance, economics, mathematics, statistics, science, engineering, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

Programme Code: FN120A

Application Code: 2390-FN120A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme is designed to impart contemporary knowledge in financial technology (FinTech) and artificial intelligence (AI) to students. It will equip them with critical skills to effectively utilise computational tools and online software for writing computer programmes, designing and implementing applications. Additionally, the programme demonstrates the practical applications of FinTech and AI, while addressing pertinent issues in the commercial world.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution. Those with a business, accounting, finance, economics, mathematics, statistics, science, engineering, IT or computer science background would have an advantage.

金融科技及金融分析

Certificate for Module (GenAI and Automation for Finance and Business)

Programme Code: FN104A

Application Code: 2380-FN104A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with essential knowledge of generative artificial intelligence (GenAI) and its applications for business and finance. It equips students with technical skills to apply computational tools and online software in the computer laboratory. The programme also illustrates process automation for business and finance and discusses the issues of GenAI and automation.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution. Those with a business, accounting, finance, economics, mathematics, statistics, science, engineering, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

Q Level 5 (Reg. No.: 23/001136/L5) Validity Period: 01 Dec 2023 - on-going

Certificate for Module (Generative AI, DeFi and Risk Governance)

Programme Code: FN099A

Application Code: 2435-FN099A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with contemporary knowledge on the latest development in generative artificial intelligence (AI) and risk governance. It aims to equip students with the essential knowledge and practical skills to analyse the risks and opportunities of AI and decentralized finance (DeFi), and develop chatbots using natural language processing (NLP) techniques. The course also discusses the risk governance and ethical considerations related to AI and DeFi.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution. Those with a business, finance, economics, mathematics, science, engineering, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

Programme Code: FN116A

Application Code: 2385-FN116A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with contemporary knowledge of artificial intelligence (AI) and practical chatbot applications for finance and business. It equips students with practical skills to use Python to develop chatbots with large language models (LLMs) and retrieval-augmented generation (RAG) to enhance their capability. The programme also illustrates the deployment of generative AI and application of intelligent chatbots to improve finance and business operations.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution. Those with a business, accounting, finance, economics, mathematics, statistics, science, engineering, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

Programme Code: FN131A

Application Code: 2385-FN131A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme is designed to impart contemporary knowledge on portfolio theory and risk management to students. It equips them with the practical skills to apply Python to perform portfolio optimisation, implement hedging strategies, and develop financial modelling. Besides, the programme covers portfolio construction and performance evaluation.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution where the language of teaching and assessment is English. Those with a business, accounting, finance, economics, mathematics, statistics, science, engineering, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

Certificate for Module (Robotic Process Automation with Business and Financial Applications)

Programme Code: FN061A

Application Code: 2390-FN061A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with essential knowledge of robotic process automation (RPA) in streamlining workflow and improving business operations. It covers the design, development and implementation of RPA with illustrations using computational tools. Practical applications and cases of RPA for business and finance will be discussed.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution. Those with a business, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

\$ HK\$10,200 per programme
Application Fee: HK\$150

D 1 month to 2 months English

Q Level 5 (Reg. No.: 21/000350/L5) Validity Period: 01 Jun 2021 - on-going

Certificate for Module (Stochastic Processes and Financial Analytics)

Programme Code: FN169A

Application Code: 2385-FN169A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme provides a contemporary foundation in stochastic processes and financial analytics. Students will master essential concepts in probability, statistics, stochastic processes, and financial modelling, and learn to apply computational tools and software and numerical methods for pricing assets and derivatives.

R Applicants should hold an Advanced Diploma, Higher Diploma or Associate Degree awarded by a recognised institution where the language of teaching and assessment is English. Those with a background in business, accounting, finance, economics, mathematics, statistics, science, engineering, IT or computer science would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

\$ HK\$10,800 per programme
Application Fee: HK\$150

D 30 hours English

Q Level 5 (Reg. No.: 26/000155/L5) Validity Period: 01 Mar 2026 - on-going

Certificate for Module (Technical Analysis and Data Analytics for Stock Investment)

Programme Code: FN093A

Application Code: 2385-FN093A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with the basic knowledge of stock investment and data analytics, and the essential skills in analysing trends and patterns of stock prices using technical analysis. The programme illustrates techniques of web scraping and data wrangling of stock price data using computational tools. It also discusses technical analysis charts using data visualization. Students can learn how to analyse stock price trends and predict stock price movement to support investment decision-making through practical classes in the computer laboratory.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution. Those with economics, finance, business, IT or computer science background are preferred.

Applicants with other equivalent qualifications will be considered on individual merit.

\$ HK\$10,200
Application Fee: HK\$150

D 30 hours English

Q Level 5 (Reg. No.: 23/000128/L5) Validity Period: 01 Feb 2023 - on-going

Certificate for Module (Time Series Methods and Technical Analysis)

Programme Code: FN153A

Application Code: 2435-FN153A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme is designed to impart contemporary knowledge of time series methods and technical analysis to students. It equips them with the practical skills to apply computational tools and software to perform technical analysis. In addition, the programme explores the practical applications of time series methods and technical analysis in quantitative investing.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution where the language of teaching and assessment is English. Those with a business, accounting, finance, economics, mathematics, statistics, science, engineering, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

****PLEASE UPLOAD COPY OF HKID AND PROOF OF DEGREE WHILE APPLYING ONLINE.**

\$ HK\$10,500
Application Fee: HK\$150

D 30 hours English

Q Level 5 (Reg. No.: 25/001166/L5) Validity Period: 01 Oct 2025 - on-going

Certificate for Module (Web 3.0 and FinTech)

Programme Code: FN103A

Application Code: 2390-FN103A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with contemporary knowledge of Web 3.0 and Financial Technology (FinTech), as well as their latest development and implications in finance. It will equip students with the essential knowledge of decentralized finance (DeFi), blockchain, smart contracts, non-fungible tokens (NFTs) and cryptocurrencies in the Web 3.0 sphere. The programme also covers Python programming with practical classes in the computer laboratory and illustrates the applications of Web 3.0 and FinTech.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution. Those with a business, finance, economics, mathematics, science, engineering, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

\$ HK\$10,200
Application Fee: HK\$150

D 30 hours English

Q Level 5 (Reg. No.: 23/000895/L5) Validity Period: 01 Nov 2023 - on-going

Certificate for Module (Web 4.0 for Finance and Business Applications)

Programme Code: FN154A

Application Code: 2435-FN154A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with contemporary knowledge of Web 4.0 and discuss its developments and implications in finance and business. It will equip students with the essential knowledge of advanced artificial intelligence (AI), brain-computer interfaces (BCIs), and immersive technologies in Web 4.0. The programme also illustrates the applications of computational tools and software of Web 4.0 and examines their practical applications in financial and business contexts.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution where the language of teaching and assessment is English. Those with a business, accounting, finance, economics, mathematics, statistics, science, engineering, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

FinTech and Financial Analytics

金融科技及金融分析

Certificate for Module (Web Application Programming for Finance and Business)

Programme Code: FN109A

Application Code: 2385-FN109A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with essential knowledge of web application programming and its usage to support business functions. It covers various techniques to design and develop web applications using computational tools. Upon completion of the programme, students are able to apply programming skills to implement web applications with practical finance and business applications.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution. Those with a business, accounting, finance, economics, mathematics, statistics, science, engineering, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

\$ HK\$9,900
Application Fee: HK\$150

D 1 month to 2 months English

Q Level 5 (Reg. No.: 24/000467/L5) Validity Period: 01 Jun 2024 - on-going

Certificate for Module (Web Design and Frontend Development for Finance and Business Applications)

Programme Code: FN145A

Application Code: 2390-FN145A

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The programme aims to provide students with essential knowledge and a framework for web design and frontend development, as well as to help them understand the related operational flows of the system. It equips students with practical skills to apply computational tools and software to design creative and interactive user interfaces. The programme also illustrates the methods and techniques used to design, develop, and implement finance and business applications.

R Applicants should hold an Advanced Diploma, a Higher Diploma or an Associate Degree awarded by a recognised institution where the language of teaching and assessment is English. Those with a business, accounting, finance, economics, mathematics, statistics, science, engineering, IT or computer science background would have an advantage.

Applicants with other equivalent qualifications will be considered on individual merit.

Q Level 5 (Reg. No.: 25/000864/L5) Validity Period: 10 Jul 2025 - on-going

Big Data and FinTech Executive Workshop Series – Applied AI and Business Analytics

Programme Code: FINA9341

Application Code: 2435-1291NW

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The workshop aims to provide executives with practical knowledge of Artificial Intelligence (AI) as well as discuss various areas of Business Analytics to assist business and financial decision making. The applications of AI in the areas of business and finance will be discussed.

R There is no specific entry requirement.

\$ HK\$3,200 per module

D 5 hours Cantonese, suppl with English

Big Data and FinTech Executive Workshop Series – Big Data and Data Visualization

Programme Code: FINA9340

Application Code: 2385-1759NW

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The workshop aims to provide executives with basic concepts and knowledge about Big Data as well as develop their skills in process Big Data. It provides a practical approach for executives to apply computational tool (e.g., Tableau) to perform data visualization and analyse data for business and financial decision making.

R There is no specific entry requirement.

\$ HK\$3,500 per module

D 5 hours Cantonese, suppl with English

Big Data and FinTech Executive Workshop Series – FinTech and Cyber-security

Programme Code: FINA9342

Application Code: 2390-1433NW

2867 8331 / 2867 8424

finedec@hkuspace.hku.hk

The workshop aims to provide executives with the latest development of FinTech and related technological elements. Solutions and applications using in finance and investment as well as cyber-security will be covered.

R There is no specific entry requirement.

\$ HK\$3,500 per module

D 5 hours Cantonese, suppl with English
